Produced by the Office of
Public Information Services.

THE ALUMNUS is issued four times a year in February, May, September and December by the University of Northern Iowa, 1222 W. 27th St., Cedar Falls, Iowa 50613. Second class postage paid at Cedar Falls, Iowa 50613.

A few words

by Lee Miller, Alumni Director

Alumni 'firsts' occurring

Within the next few months, several firsts will be happening for UNI alumni and the Alumni Office. One has already happened - our move to new office spaces.

Those of you who visited our old offices in Gilchrist Hall (Administration Building) know we were very crowded. Recently, for the first time in several years, the university remodeled space for us in the Arts and Industries Building. We now have about twice as much space. We're on the ground floor and the newly remodeled Graduate College offices are across the hall. We'll have a remodeled entrance soon, also. You'll notice by the picture of our happy crew that we're enjoying our new elbow room. Come visit us.

Another first is the celebration of Class Reunions and Homecoming at the same time this fall, Oct. 8-9. This, of course, means moving the reunions from spring to fall. We're doing this because of time and space problems, and also, because we sincerely believe that we can improve both events by using the same weekend. Neither event will lose its individuality and, in our opinion, each will offer more for everyone.

The other first which you'll read more about on page 3 is the unanimous adoption of a dues-paying association by the Alumni Association board of directors. The University, for all practical purposes, has supported the Alumni Association since its formation in 1879. And, since we all received a fine education and are living a better life because of it at a very low cost to us, I think it's only realistic that we assume some of the cost.

Not only will all alumni have an opportunity to share the cost, we intend to improve the services to alumni. I plan to be the first to join. Please join me. There will be further information in the June *Century* when we get all the facts put together.

The Alumni Affairs staff show off their new offices in the Arts & Industries building and invite all alumni to visit them. The staff includes Mary Miller (front); Mona Wiesley (left center) and Bert Reed; Lee Miller (left back), Elly Leslie and Mary Moothart. Bob Justis works in his office (back right).

The Campanile visibly portrays a way that UNI alumni have served their University. It was donated in 1926 by alumni, faculty, students and friends as a memorial to the founders and builders of the University. Later, in 1966, alumni raised funds to add an additional 32 bells to make a complete 47-bell carillon in the Campanile.

Introducing— The new UNI Alumni Association

You - all of you University of Northern Iowa alumni - are an important part of the University. The Alumni Association strongly believes this and therefore, wants to do more for all of you. However, to offer you more services will require more money. How to resolve the problem?

After considerable thought and consultation, the UNI Alumni Association board decided on a plan that will expand services to an ever-increasing alumni body. The plan will also take the financial burden of the Alumni Association off the University.

The answer is a plan to support alumni activities through charging dues for active membership. In this way, alumni can strengthen their support for the University and they will receive special benefits for their support.

The Alumni Association board announced that the change to a dues-paying structure will take place during the summer when all alumni will have an opportunity to become dues-paying association members.

Why change to a dues-paying association? One reason is economics - dollars and cents.

Lee Miller, director of Alumni Affairs, candidly stated, "The Association's expenses go up drastically each year and we can't ask the University to support all alumni activities. In order to offer additional services to alumni that we've not offered in the past, we feel we must ask for some nominal support."

The number of alumni also increases along with the expenses. Each year about 2,000 alumni are added to a mailing list which already bursts at 38,500. For instance, it now costs about \$400 to mail each issue of *The Alumnus* magazine and 25¢ for each copy mailed and returned with a corrected address.

The Alumni Affairs staff has researched this idea and discovered, after contacting several universities, that a change to a dues-paying association can benefit the total alumni program. Iowa State and the University of Iowa have both had successful dues-paying associations for several years.

Bob Justis, assistant to the alumni director, pointed out that obviously, not all UNI alumni will choose to join the association. This does not mean that they will lose touch with UNI. "We do not propose to take something away from alumni who do not pay dues, but rather to give additional benefits to those who do," Justis explained.

Complete details of additional benefits offered to dues-paying members will reach you soon. The Alumni Association board is finalizing details.

One change, however, will occur with *The Alumnus*. Alumni Association dues-paying members only will receive *The Alumnus*. The quarterly publication will continue to feature articles of interest to alumni including the well-read News Notes section. Articles relating national trends to UNI and highlights of local campus projects will also appear. The *UNI Century*, the news tabloid, will still be mailed to all UNI alumni and parents of current students. Alumni should also be aware that this May issue of *The Alumnus* is the last one they will receive unless they become dues-paying Alumni Association members.

Because *The Alumnus* is part of this new project, it will also have a new look starting with the September issue.

The Alumni Association board believes this plan will achieve several important goals for UNI alumni:

1.) It will put the UNI association in step with other strong alumni associations in the nation. Based on a study done by Baylor University, it was found that the majority of the strongest alumni associations are supported by active members who pay dues.

2.) It will encourage more active participation by more alumni.

3.) It will provide an economic base for future alumni achievements, thus making alumni of greater value to the University.

The Alumni Association board and staff hope that you will want to join to help make this a successful step for all UNI alumni. Watch for details in the June *Century*. You'll also receive individual information in the mail about how you can join the new UNI Alumni Association.

Community representative named to Policy Board

A Cedar Falls dentist has been named to the UNI-Dome Policy Board, by UNI Vice President for Administrative Services Robert Stansbury, to replace a member who has left the community.

Dr. James McCutcheon has been named to succeed Frank Standish as a Cedar Falls community representative on the Board. Standish, who was president of Viking Pump Division of Houdaille Industries in Cedar Falls, is now senior vice president of Chicago Pneumatic Tool Co. in New York City.

McCutcheon, a native of Traer, came to Cedar Falls in 1957, following his graduation from the University of Iowa, and opened his private practice. He is a member of the First United Methodist Church, Rotary International, Arcturus Club and Beaver Hills Country Club.

He is a past president of the Black Hawk Dental Society, and a member of the Waterloo District Dental Society, the Iowa State Dental Society and the American Dental Association. His family has had long-time involvement with the Cedar Falls Swim Club.

He and his wife, Martha, are the parents of three daughters, Jane, Barbara and Carolyn.

"Since I am not an alum of UNI nor a Cedar Falls native, I feel my appointment to this Board really

demonstrates community involvement and shows the support of the community for the UNI-Dome," said McCutcheon.

"Our families have been products of the state schools from years back," he continued. "We are vitally interested in the continued growth and development of all these schools. We feel the UNI-Dome is a unique opportunity for this school and I am pleased to be a part of the cultural enrichment this facility brings to the community."

"Our daughter graduated from high school in the Centennial year of the institution and the nation's Bicentennial. The special ceremonies held in the UNI-Dome will be one of the life-long experiences she will always remember."

The function of the UNI-Dome Policy Board is to develop major policy on the operation, maintenance and programming of the UNI-Dome. In developing policy, the Board seeks to maximize the multi-purpose usage of the facility by the University student body, the entire academic community and the private sector, as well as the revenue-producing potential of the facility.

The Policy Board also reviews long-range programs submitted by the UNI-Dome program committee, prepares an annual report for the

University and UNI Foundation and performs other functions necessary for the efficient operation of the facility.

The UNI-Dome Policy Board is responsible to the Vice President for Administrative Services (Stansbury) and meets at his call or the call of the chairman, Jim Heinz of Waterloo. The Board meets regularly the second Wednesday of each month.

MATCH MATCH your money

When you give to the UNI Foundation, remember that many corporations and companies will match your gift.

Waterloo-Cedar Falls residents are also reminded that now John Deere has a matching gift program.

Double, and sometimes triple, your contribution with a matching gift program. Check with your employer.

Homecoming, Alumni Reunions combine for one gala weekend

For the first time, Homecoming and Alumni Class Reunions will be combined for one gala weekend (Oct. 8-9). There will be no June reunions and the Alumni Association believes this fall duet will offer alumni more than summer reunions.

Mrs. Ellen Leslie, assistant to the director of Alumni Affairs, discussed the reasons why reunions are being combined on trial basis with Homecoming this year. Many alumni comments indicate that June reunions conflict with vacations and with alumni who attend other universities to pick up summer credits. Also, this year there was a conflict with University facilities for June reunions.

Staff in the Alumni Office also talked with alumni who, for various reasons, can only make one trip a year to the campus. These people traditionally choose Homecoming over reunions because Homecoming provides the opportunity to see more friends and to participate in more activities. Alumni attending for reunions only this fall will still have one day especially for themselves and their classmates.

Visiting the UNI campus in the fall is also very different from seeing the campus in the summer. During the fall semester the campus is in full swing, more students are around and alumni can take advantage of Homecoming events like the variety show and parade.

The alumni weekend will include the traditional football game, class meetings and presentation of the Alumni Service Awards. In addition, the Alumni Achievement Awards will be presented at the Homecoming-Reunion brunch instead of at May commencement exercises.

There will be several additional highlights to the weekend. Bob Lee, B.A. '50, has arranged a special reunion for Iowa State Teachers College football players from the years 1946-49.

This year the classes of 1917, 1927, 1937 and 1952 will be honored at the

reunion. People in classes one year ahead and one year behind the honor classes are also welcome.

The new UNI Band Alumni Group may also participate in the Homecoming-Reunion festivities. Organized to give additional support to the UNI band, the group's first event was May 20 in Des Moines in conjunction with the Iowa Bandmaster Association. A reception was held for all former UNI band members. Dr. Karl Holvik, UNI music professor, is a prime organizer of the band alumni group. More information on the group will appear in a future *Alumnus*.

Alumni can register for the Homecoming-Reunion Weekend by using the registration forms on the back cover of this *Alumnus*. The Saturday schedules for Homecoming and Reunion alumni are the same except for the 2:30 p.m. event when Reunion alumni attend class meetings. Homecoming will not be combined with State Day this year.

Saturday, Oct. 8

- 9:00 AM Registration--Commons
- 10:30 AM Campanile Concert
- 11:30 AM Brunch--Commons Ballroom
- 1:00 PM Parade--Downtown Cedar Falls & College Hill
- 2:30 PM Class meetings (Reunion)
Tour campus on your own (Homecoming)
- 4:30 PM Cocktails, Commons
Georgian Lounge
- 5:30 PM Buffet, Commons Ballroom;
presentation of Alumni
Achievement Awards
- 7:30 PM Football, UNI vs. Augustana,

- 12:00 PM Luncheon, Commons Ball-
room; presentation of
Alumni Service Awards.

The intangible benefit

Sometimes you don't see instant results when you give someone something.

But, your contributions to the University of Northern Iowa are important not only for concrete projects but for the intangible ones, too.

One of the best ways to give a gift to UNI is by creating a trust through the UNI Foundation. The University benefits and you will too by setting up a trust fund. Here are some of the benefits for you:

- Deferred interest from the trust is immediately deductible;
- Amounts paid to individual beneficiaries can qualify for favorable tax treatment;
- There's no capital gain tax on your paper profit when you transfer appreciated securities to the trust;
- The trust might save thousands of dollars in estate taxes;
- You can divert income to a low bracket taxpayer within your family group.

Write or call: UNI Foundation, University of Northern Iowa, Cedar Falls, IA 50613 (319)273-2355. Or consult your attorney for further information.

Help make the intangible difference - create a trust in UNI.

Campus Changes

Sabin Hall, built in 1912, housed the Campus School until the fall of 1953 when Price Lab School opened. Sabin Hall was remodeled in 1955-56 and again in 1968 and now houses the Dean of the College of Business and Behavioral Sciences and departmental offices and classrooms for economics, history, geography, political science and sociology and anthropology. The building was named for Henry Sabin, Iowa superintendent of public instruction and a close associate of then I.S.T.C. President Homer Seerley.

Seerley Hall, built in 1908, was dubbed the Library until 1964 when the current library was completed. The building was then named Seerley Hall and became the home of the School of Business and the department of business education and office administration. It was named for Homer H. Seerley, president of then Iowa State Teachers College from 1886-1928. Seerley Hall also houses some other departmental classrooms.

The south side of The Commons as it connected the dormitories. Students spent many afternoons and evenings on the front porch of this building.

Remodeling of The Commons in 1972 covered the front porch with a new facade for the Educational Media Center.

Photo courtesy of the UNI Archives

Many alumni will not recognize their old student day stomping grounds on the front porch of the Commons. The Commons student union was remodeled in 1972 when an addition was built over the front porch. It then became the new facility for the Educational Media Center operation. It still has student dining rooms, kitchen, the student lounge and large ballroom as well as offices of the director of dining service and administrative dietician plus several meeting rooms.

George T. Baker Hall for Men is the building on the right and Homer Seerley Hall is partially visible beneath trees on the left. After the two buildings were connected with a main entrance on the north side, the one building was called Baker Hall.

The old heating plant as it stood in the middle of the Iowa State Teachers College campus in 1928. The top of the Auditorium building is visible to the far left. The other buildings are (l. to r.) Central, the Old Administration

Building, Gilchrist Hall and Seerley Hall (the old library). The Union Craft Shop-Anthropology Lab is hidden behind the heating plant building.

The old heating plant for Iowa State Teachers College still sits behind the Old Administration Building and the area where Central and Gilchrist Hall once were. The small brick building housed part of the early physical plant until the mid-1930's. Now, minus its smokestack, it is split in half and used as a Union Craft Shop and Anthropology Lab.

The Arts & Industries building was created for those two departments and used by them until the new Industrial Technology Center was completed in 1976. The Art Department took over more space in part of the building. The west end of the building was remodeled for the Alumni Office and the Graduate College Office.

Baker Hall was built in three units and has had as many names. It started as Baker, a men's dormitory. A second wing was added in 1938 and named after Homer H. Seerley. In 1955 a connecting wing was constructed between the two buildings and the total three-part building was called Baker Hall. It was a men's dorm until 1970 when it was first completely used for instructional purposes. Baker Hall now houses the department of English, earth science, philosophy and religion, foreign languages and psychology plus the Credit Union, Personnel Service, Stenographic Pool and Academic Computing Services.

The Arts & Industries building, southeast of Gilchrist Hall (Administration) houses the offices for Alumni Affairs and the Graduate Dean as well as office and classroom space for the art department.

Campus Changes

(More changes in September Alumnus)

The value of college - is it all economics?

"An education system based primarily on economic motivation--in other words greed--leads us straight into the trap we are already heading for as we use up irreplaceable resources, contaminate our environment and aggravate the disparities between the haves and the have-nots of the world. Surely our educational institutions can and must appeal to society on some other basis than the attraction of this lemming-like future."*

by Susan M. Chilcott, Coordinator,
University Publications

Harold Howe's articulated concern responds to the current nationwide criticism that a college education has declined in value. The primary focus of this criticism has been based on economics: that the rate of return on such an investment no longer justifies the expense for students and parents nor for the institution's funding sources whether they are public or private.

One of the most widely publicized economic analyses is that of two Harvard economists, Richard Freeman and J. Herbert Holloman, published in the September 1975 issue of *Change* magazine. The article was based partially on their assertion that the rate of return on college fell from 11-12 per cent in 1969 to 7-8 per cent in 1974. (Freeman and Holloman's computation means that while college graduates made on the average about 11-12 per cent more annually than high school graduates in the earlier year, they made only 7-8 per cent in the later year. The computation allows for the investment costs of college as well as other assumptions.)

*Harold Howe, "The Value of College: A Non-Economists View," *Educational Record*, Winter 1976.

**The Value of a College Education, October 1976.

***"Tomorrow's Jobs for College Graduates," *Outlook for College Graduates*, 1974-75 Edition, U.S. Department of Labor, Bureau of Labor Statistics, Bulletin 1786.

However the American Association of State Colleges and Universities (AASCU) points out that the two economists compared "the earnings in years of vigorous growth in the sixties with the earnings in years of recession, and then predicted that the indefinite future will be more like the recent recession."***

The AASCU also correctly notes that "There is...no scientific basis for making such a prediction, nor have economists nor other social scientists generally shown themselves very good prophets in recent years. Nor is there any way to predict the possible political or policy changes which could return this country to a much higher economic growth rate, and also create many new jobs for graduates...."

Howe, who specifically takes issue with Freeman and Holloman, points out that even using their rate of return analysis, eight per cent is a much larger return than one would receive from life insurance, savings banks or stock market speculation. He says, unabashedly, that his employer, the Ford Foundation, would be far better off today if it had been "smart enough to get an eight per cent return on its investment from 1969-1974!"

Looking at statistics supporting a positive viewpoint, one finds that there are economic benefits from a college education. But perhaps they are more subtle and go beyond five-figure starting salaries for every holder of a bachelor's degree.

The U.S. Department of Labor statistics show that even during a sluggish economy college graduates have the lowest unemployment rate of any group in the population.***

The Department also reports that nearly one quarter of all job openings between 1972-1985 are expected to require persons with four or more years of college, and college graduates will be needed for almost one-third of all white collar job openings.

Another encouraging statistic comes from the new U.S. Census study on family income. That study finds that families in which the head has had at least four years of college

not only have the highest median income (\$21,961), but also the largest apparent 1975 dollars, 2.1 percent. The median income for families where the head had three years of college was \$16,579 and where studies were completed at high school, \$14,729.

Any enumeration of economic benefits must include the following advantages cited by a major study published by the Carnegie Commission on Higher Education. College graduates experience a more continuous, less erratic job history; more frequent promotions and less likelihood of dead-end jobs; opportunities for alternative employment are better and college graduates have more control over their economic futures.

Larry Routh, director of Career Planning and Placement at UNI agrees. "When we are talking about education we are basically talking about abilities," says Routh. "It's true

that some types of classroom learning, some of the knowledge students gain in college becomes outdated."

But, that is not the critical point of a student's college education. Routh emphatically stresses that "the abilities students learn or the attitudes they develop while in college transcend changing employment patterns. Persons trained in one particular vocational area are stuck if their expertise in that field becomes outdated.

"If you're on an assembly line and your job becomes obsolete, then what do you do?" he asks.

"However, I must be honest. Business, industry and government are taking on a greater role in training their people who must change jobs within the company. There appears to be a greater commitment to helping employees and I hope that continues.

"But I'd rather not have to depend on an employer. I'd rather have my own skills and abilities that could move with me if necessary and would make me attractive to a new employer," says Routh.

What is it that transcends changing employment patterns? In discussions with UNI staff from placement, admissions, counseling and advising the answers are unanimous. Employers talk about the basic skills of communication, the ability to solve problems and analyze issues, a receptiveness to opposing viewpoints and an understanding of the environment from which people come.

Joel Topp, an account executive with the Waterloo office of Snelling and Snelling Employment Service, corroborates much of what has been said. Topp says people with a bachelor's can be a step ahead in the job hunt and that employers do indeed look for individuals who have what generally is referred to as a "well-rounded" background.

Topp works in placements for sales and administrative positions and points out that for "management trainee positions, a high school education is often enough. But the more education a person has, the better he or she looks to the employer.

"And, if you're looking at a sales trainee position with a national company, they want degreed people. Firms that are local or regional in scope often don't ask for the degree.

"However, for placement in technical areas such as computer programing, industrial engineering or the chemical industry, a degree is a must."

Topp, a 1974 UNI graduate with a degree in sociology, also has a word of advice for the liberal arts graduates. "They can help themselves immeasurably if they will add one or two business courses such as accounting or marketing to their program of studies."

Routh urges the same course of action suggesting that smart students will build flexibility into their programs. And he adds, "if they want a job in education, government or

certain business and professions, a college education is a basic requirement-either that or many years of relevant experience."

While the pro and con discussions concerning the economic benefits of a college education could go on ad infinitum, such concentration overlooks the important role higher education plays in the development of what Harold Howe refers to as the personal and civic realms.

Says Howe, "I claim...that the investment of both personal and public funds is as justified for the development of personal and civic attributes as it is for economic.

"Indeed, I'd be prepared to argue that what people learn in college for personal and civic uses is considerably more important than what they learn to create earnings. It just isn't measured the same way.... [because]...we cannot isolate and assign dollar values to the influence of college on the personal and civic realms."

Do better educated people make better citizens? The answer is yes according to studies conducted by political and social scientists. Such studies reveal that college educated citizens take a more active part in government and politics, and participate more frequently and thoroughly in voluntary and community organizations than citizens with less education. In addition, they are less likely to be influenced by prejudices and stereotypes and more likely to attempt rational and non-violent solutions to problems.

No one is suggesting that college is for everyone. And the UNI admissions staff is quick to point out that while they try to assist prospective students in planning for their future, they do not recommend college if they believe it will be detrimental to a particular student.

But college is an avenue which enables many people to reach their highest potential both professionally and personally. To judge the value of higher education in dollars and cents is short-sighted and dangerous. To let economics alone control the future of higher education would be disastrous.

Foundation governors, directors elected

The University of Northern Iowa Foundation Board of Governors elected nine new members to its organization at the annual meeting of that board and the Board of Directors held recently on the UNI campus.

The 22 members present elected Philip Berg, president of Midway Bank & Trust in Cedar Falls; Bernard Ceiley, a UNI alumnus associated with State Farm Insurance in Cedar Falls; Dr. Al and Mrs. Bonnie Cornish of Sigourney who are presidents of the UNI Parents' Association (UNIPA); Dale DeKoster, president of the Waterloo Savings Bank; E. Scott Fetner, president of the National Bank of Waterloo; Mrs. Kay Hoobler, a

friend of the University from Shaker Heights, Ohio; Dr. James McCutcheon, Cedar Falls dentist and member of the UNI-Dome Policy Board; Calvin Peterson, general manager of John Deere Tractor Works in Waterloo; and R. K. Sverdahl, president of the Peoples Bank & Trust Co. in Waterloo.

The board also re-elected four members to the UNI Foundation Board of Directors for three-year terms. Those members include: James Bailey, UNI treasurer; Dr. Edward Voldseth, UNI vice president for University relations and development; Mrs. Colleen Shearer, acting director for Job Service of Iowa in Des Moines; and

LeRoy Redfern, Cedar Falls attorney.

The Board of Governors also voted to allow the presidents of UNIPA one vote on the Board of Directors during their term of office. Therefore, until the end of their term this fall, current UNIPA presidents Al and Bonnie Cornish will be on the Board of Directors. Cornish is an optometrist in Sigourney and Mrs. Cornish teaches elementary school.

Current officers re-elected for the Board of Directors include: T. Wayne Davis, president of Control-o-fax Corporation in Cedar Falls, president; Redfern, vice president; Lee Miller, UNI Director of Alumni Affairs, secretary; and James Bailey, treasurer.

UNI Summer Repertory Theatre 1977

Georges Feydeau's French farce, "13 Rue de L'Amour" was presented during UNI's summer rep theatre '76. Jeannie Hickerson played the concierge, Madame Spritzer.

273-2230.

All performances in the UNI Maucker Union.
Buffet and cabaret performances available.

The musical for summer rep '76 was "Oklahoma". Peter Johnson, one of the cowboys, celebrates as Ado Annie Carnes (Tappy Korthals) looks on admiringly.

UNI graduate student Mike Parks helps Pam Wagner, Goodwill client, form her mouth to articulate the sound "r".

speech

hearing

Tavis Addison and Sonya White practice putting on right and left parts of the felt Santa Claus. Therapist Mary Ward explains to the children the difference between right and left.

The clinic goes to the community

"Tavis, have you got toes inside your boots like this Santa Claus?" the clinician asked as she pointed to a felt Santa on a board.

"No," Tavis replied with a frown.

"You don't?" the clinician queried.

"Where are your toes?"

"At home," Tavis instantly insisted.

The clinician who led the child into saying more than one word is one of several UNI speech pathology graduate students who visit a community center weekly to provide diagnosis and therapy for children and adults with speech disorders. This program, administered by the Department of Speech Pathology and Audiology, gives some centers their only source of speech diagnosis and therapy. It also prepares UNI students with practical and close to real-life experiences.

Dr. Roy Eblen, head of the department, explained that graduate students serve four off-campus centers plus Schoitz Hospital. He and the supervising instructors believe in sending students off-campus so they work with other professionals and interact in a team approach to diagnosis and therapy.

The graduate student practicum is the finale to the department's carefully monitored series of experiences. Students start as sophomores and observe other clinicians in the on-campus speech and hearing clinic. Because of their experiential training, Eblen certifies that the 25 or so M.A. speech pathology graduates each year are "highly qualified because they learned to be clinicians by doing clinical work."

In the community program, speech pathology students this year served Goodwill Rehabilitation Center, Headstart, Lily Furgerson Child Development Center, Newel Post Adult Day Care Center and Schoitz Hospital.

Goodwill has been receiving UNI's speech pathology services for five years. That center is a rehabilitation unit for older adolescent and adult handicapped whose work skills are evaluated. UNI clinicians screen everyone who goes through the center and provide speech and hearing services when needed. Goodwill clients usually have articulation or hearing problems.

Dr. Ralph Schwartz, associate professor of speech pathology and audiology, supervises the graduate students who work at Goodwill two days a week. He said the students get to see a different group of individuals and a different set of circumstances away from the UNI clinic.

"They also see how an organization like Goodwill functions," he elaborated, "and they learn more than one way to use their own speech pathology skills."

One student clinician pointed out that by being at Goodwill she sees where her clients work, talks with their supervisors, and, most importantly, sees the kinds of communicating they do. For speech pathology work, this latter point is essential. Eblen explains that the program aims "to get the client to useful communication that's socially helpful or acceptable. It will vary according to age and disorder. We're not aiming necessarily for 'normal' behavior."

Mike Parks from Nashua, trained at Goodwill last fall. "I expected the cases to be worse than they were," he acknowledged. "I shared ideas with other professionals about the clients and got ideas in return." The only drawback he saw was the working area. Because he and another clinician had therapy sessions in the same room, they distracted each other's clients.

Speech pathology students have also worked at Headstart centers for several years and, in the past, have been the only source for speech and hearing problems. However, this year two Area Education Agency 7 people supervised the UNI clinicians. Dr. Clifford Highnam, assistant professor of speech pathology, also supervises the students who go to the centers two days a week.

The children at Headstart centers are all four years old. UNI students screen them all for speech, language and hearing problems. Some referrals are made for medical attention or psychological problems.

Highnam also supervises students who work with children ages 2-4 at the Lily Furgerson Child Development Center. There, each clinician has a separate room and works with two or three children at a time. Clinicians look for problems with hearing, language, articulation, voice and rhythm (stuttering).

Clinicians at Lily Furgerson "observe how children use language, how they interact and how they develop in their general social, physical and emotional behavior," Highnam explained. "Sometimes in therapy we bring in kids without problems to act as models for others, or we may send children back to their classrooms and observe them to see if the therapy has helped."

At Lily Furgerson clinicians spend half an hour with each group of children. In the fall semester three clinicians saw 20 out of the 80 children. "The range of cases at Lily Furgerson is better than at Headstart," Highnam noted, "but, at Headstart UNI students see how a federally operated program works."

At Lily Furgerson, UNI students also interact with the classroom teachers. Clinicians may suggest ways for the teachers to work with specific children or ways to stimulate a whole class in language. Clinicians get feedback from the teachers, who Highnam casts as "rich in their

experiential training.” He encourages students to make tactful suggestions and be open to what the classroom teachers say.

UNI students see a different clientele at the Newel Post, an adult day care center which is one year old and received UNI services for the first time this year. Dr. Jasper Phelps, assistant professor of speech pathology, supervises UNI students who work with older or handicapped people. Phelps said that some of the clients are not old but have physical disabilities.

Eblen explained that the Newel Post provides a program primarily for aged and handicapped people and also offers some relief for the families. The clients are people with cerebral palsy, hearing losses or voice disorders. Many also have some degree of aphasia, an inability to use words usually following a stroke with brain damage.

At the Newel Post, Phelps says there is a wide variety of disorders for the students to see. Student clinicians work with clients three times a week for half an hour each session. Clinicians go to the Newel Post where the clients enjoy themselves in a nonthreatening environment.

Ellen Haynes of Alliance, Nebraska, worked with five clients in

Blair Reed (left) works with Don Buss in aphasia therapy at the Newel Post. Buss verbally describes a picture of the action “to sleep”.

the fall semester. Her clients were people from age 20 to 80. Several of them had had strokes which caused physical effects and two had voice problems.

“The people like to come to the Newel Post and they’re having therapy because they want to,” Ellen observes. She feels most of the clients benefit from therapy.

Phelps thinks the Newel Post clients are a definite challenge to the speech pathology students. “Clients’

prognoses there are not necessarily as good as cases from hospitals so students have to work harder to understand the problems,” he suggested.

UNI’s speech pathology department began this program by providing diagnostic services for stroke patients at local hospitals. Occasionally students did therapy, but usually patients were referred to the UNI campus clinic. Now, within the past year, two Waterloo hospitals have added a fulltime speech pathology-audiology person to their staffs. Eblen thinks this is partly a result of the UNI services and extended care in the hospitals.

Current hospital involvement is limited to Schwartz and a few students who do evaluations, consultations and some therapy. Schwartz says the hospital setting shows students how speech pathology fits in with the other therapies that hospitals provide.

Through the speech pathology community program Eblen stresses that the students’ responsibility is awesome “because they’re tampering with lives since personal behavior in language is so much a part of each individual.” He therefore cautions students - “when you tell a person he has a speech problem, you’d better be ready to give him something in place of it.”

Word cards help Kimberly Biddle (left) and Jacquet McGinnis build their vocabulary with aid from speech pathology graduate student Donna McManus.

Elderhostel offers variety in life after 60

If you are over 60 and would like to bring some new horizons into your life, you may want to sample a tuition free academic smorgasbord to be offered at 25 Iowa colleges and universities this summer. Titled Iowa ELDERHOSTEL '77, the program will offer one week of college level courses on a wide variety of subjects staggered throughout the summer. Registration will be limited to approximately 30 students at each college.

The University of Northern Iowa will offer courses on "The Middle East: Continuing Crisis"; "Geographical Background of the Bible"; "A Look at the Universe"; and "Spanish for Travelers" during the week beginning Sunday evening June 12.

The only expense for registration will be \$65 for room and board. People taking courses at UNI will stay in the Towers dormitories which have elevators. Tuition expenses have been covered by a grant from Title I of the Higher Education Act, Iowa Program IMPACT, to Iowa ELDERHOSTEL '77. There is a possibility that limited scholarship funds may become available.

Registration for courses at all 25 institutions will be coordinated by the Division of Continuing Education at The University of Iowa. A \$10 non-refundable deposit to apply on the \$65 room and board charge should be sent with completed registration.

Additional information and registration materials are available from Peggy Houston, ELDERHOSTEL, C108 East Hall, The University of Iowa, Iowa City, Iowa, 52242; (319) 353-3714. Information on UNI's offerings is available from the office of Extension and Continuing Education, (319) 273-2121.

Academic offerings of ELDERHOSTEL would probably be considered dreams come true by today's college student - no tests, no grades, no term papers. Just the fun of looking at new horizons and finding new challenges.

You don't need to be a college graduate or even have a high school diploma to register for these classes, so UNI alumni are urged to tell friends, neighbors and family about the program. Just life experience will meet all the requirements for registering.

"The Middle East: Continuing Crisis" course will focus on the Arab-Israeli conflict by examining its origins and evolutions. Other topics will include Middle Eastern oil and geopolitics.

Students in "Geographical Background of the Bible" will have the experiences of Dr. Jonathan Lu of UNI's geography department who recently returned from scholarly activities in Israel and Jordan.

"A Look at the Universe" is an introduction to the universe through visual aids and a visit to an observatory. "Spanish for Travelers" will provide basic understanding and fluency in conversational Spanish

with emphasis on patterns and vocabulary related to traveling situations.

You may be able to register for courses during more than one week at more than one college depending upon the total number interested in registering for the summer program.

If you live in or near the college you wish to attend, you will not be required to live in the dorm if you prefer not to do so.

Many recreational and social activities will compliment the academic program on each campus.

As one woman already looking to the summer classes said, "Now I'll have more in common with my grandson when he comes home from college."

An ELDERHOSTEL program opened during the summer of 1975 in New England and experienced a mushrooming enrollment last summer. The Iowa program will be the first of its type in the Midwest.

You will be eligible to register for classes at any of the participating institutions. Check the dates and places and coordinate with your summer activities.

The week beginning on Sunday:

May 29	Iowa Central Community College, Fort Dodge
June 5	Graceland College, Lamoni Southwestern Community College, Creston William Penn College, Oskaloosa
June 12	Ellsworth Community College, Iowa Falls Mount Mercy College, Cedar Rapids Northwestern College, Orange City University of Northern Iowa, Cedar Falls Central College, Pella
June 19	Buena Vista College, Storm Lake North Iowa Area Community College, Mason City Simpson College, Indianola Westmar College, LeMars
June 26	The University of Iowa, Iowa City
July 3	None
July 10	Briar Cliff College, Sioux City Clarke College, Dubuque, joint program with Loras College, Dubuque Iowa State University, Ames
July 17	Clarke College, Dubuque, joint program with Loras College, Dubuque Luther College, Decorah
July 24	Drake University, Des Moines Upper Iowa University, Fayette Waldorf College, Forest City
July 31	Morningside College, Sioux City
August 7	Wartburg College, Waverly
August 14	None
August 21	None
August 28	Iowa Wesleyan College, Mt. Pleasant

We hear from alumni...

'13

Dr. CLARA CHASSELL COOPER, M.D. '13, recently had a second edition of "Recorded Insights: Poems of Yesterday for Tomorrow" published. The book includes 21 new poems as well as all the poems included in the first edition. The second edition is published by the Berea College Press, Berea, KY, and can be purchased at the Berea College Bookstore or from Dr. Chassel who lives at 318 Jackson, Berea, KY.

Dr. Cooper is professor-emeritus of psychology of Berea College and is in her eighties. Since her retirement in 1961, she has taught students in West Virginia, Chinese students in Taiwan, and mainly black students in Alabama. In addition to her volume of verse, she has published two books of significant psychological and social import, has compiled the Biblical text for "Children of God: An Oratorio on the Brotherhood of Man", jointly sponsored by Berea College and the National Council of Churches. Dr. Cooper was recently honored at the awards dinner at the annual Kentucky State Poetry Society and was a first prize winner in the 1974 Kentucky State Poetry Contest.

'14

G. FAYE THOMAS FREDERICH, '14, Home Economics, taught eight years in Iowa before moving to California in 1922. After completing her B.S. and M.S. at the Univ. of Southern California, she taught one year in Long Beach and 42 years in Los Angeles as a teacher, supervisor. Since 1936 she has also been in real estate, becoming a realtor in 1962. Mrs. Frederick made "Who's Who of American Women", #9, 1975 and "World's Who's Who of Women" 1976, #3, published in Cambridge, England. Mrs. Frederick lives at 2103 Glendon Ave., Los Angeles, CA.

'24

TOM ALLEN SPURGIN, B.A. '24, was a visitor at the Alumni Office on Dec. 17. After graduation from UNI, he taught at Galesburg, IL, Cedar Rapids, Maxwell and Beaconsfield, IA. After 15 years of teaching he became owner and operator of a theater in Stanberry, MO. He has retired after 30 years with the theater and now manages a farm near Stanberry. Write to him at Box 176, Stanberry, MO.

'25

MILDRED BREBNER GUTHRIE, B.A. '25, has recently retired. After graduation from UNI she lived in California for several years and then came to West Liberty where she taught for a time and served as city librarian for 12 years.

'30

LORNA M. STEWART, 2 year commercial education '30, has recently returned to the United States after teaching English for several years in Paris. This past summer she visited many areas of the country trying to collect genealogical information. Her permanent mailing address is: Miss Lorna M. Stewart, c/o Dwane Stewart, 9 Carol Drive, Succasunna, NJ.

'32

MARGARET A. KENNEDY, B.A. '32, of 7283 Blackton Drive, La Mesa, CA, retired from teaching in La Mesa in 1970 after 22 years there and 11½ years teaching at Janesville, Clarinda, Cherokee and Des Moines in Iowa.

Mr. and Mrs. RUSSELL M. HACKLER, B.A. '32, (MARGARET WACHTEL, 2 yr. '32, B.A. '36) have both retired and moved to 5379-C Avenida Sosiega, Laguna Hills, CA. Hackler, M.A. from SUI and Ed D. from USC, retired as vice-president of San Bernardino Valley College. Mrs. Hackler received her M.A. from USC and retired as elementary principal in Rialto. They are moving to Leisure World and with more time hope to see more of the grads from UNI in the California area. They want to keep in contact with the alumni group in Southern California.

'34

DR. ROBERT H. WICK, B.A. '34, past president of St. Cloud State University, St. Cloud, MN, is now serving as vice-president, University Relations, St. Cloud State University. He and his wife, Alice, live at 1720 North 6th Ave., St. Cloud, MN.

'34

DR. EDWIN J. COEN, Jr., B.A. '34, began his educational career in Shelby Tenant School 43 years ago. From 1937 to 1944 he taught English and was principal at Creston Jr. High and also earned his M.A. in educational administration at the University of Iowa. In 1945 he accepted a position as high school principal at Denison. Dr. Coen then served as Crawford County superintendent from 1951 to 1965, a period of time when the many school districts of the county were merged into six reorganized districts. When Midwestern College opened in 1965, Dr. Coen became its director of public and student affairs, later becoming president, a position he held until the college closed in 1970. Dr. Coen spent 1970-72 at Parsons College, Fairfield, where he was involved in public relations and later became professor of education. In 1972, he returned to Denison as elementary principal and in 1972 was appointed superintendent. Dr. Coen will be retiring June 30th. He and his wife, Ina Van, are presently living at 18 Morningside Drive, Denison.

'37

LOIS V. HAMER, B.A. '37, of 3755 Glenfeliz, Los Angeles, CA, is project manager of Valley College's senior adult program in the Los Angeles area. The Edna McConnell Clark Foundation funded the program's job placement section which has put over 200 people 60 years and older in gainful work. Miss Hamer intends to continue the program under the college's community services program.

'48

LAVERNE BRUNS, B.A. '48, M.A. '60, was honored in the December issue of Iowa High School Athletic News as the winningest active basketball coach in the state. He has enjoyed 452 victories in 28 years, an average of over 16 each season. Bruns is boys basketball coach at Prairie of Cedar Rapids and lives at 5018 E Ave. NW, Cedar Rapids.

'49

EMMETT MITCHEL STEELE, B.A. '49, has been appointed dean of Chicago Conservatory College, Chicago, IL. He will continue to serve as vice-chairman of the Board of Trustees and remain as conductor. He is also owner of the art firm, EMS International Art Associates, Ltd., specialists in fine graphics. Steele lives at 1439 Brassie Ave., Flossmoor, IL.

'50

LOIS LOCKHART SHOVER, B.A. '50, retired from her position as principal of Carpenter School, Monticello, in January after 32 years in the Monticello school district. She began her teaching career in 1934 at Wyoming. In 1943 she was high school math teacher at Buck Creek for two years before becoming girls' physical education teacher at Monticello. Between 1945 and 1960, she served as kindergarten, first and second grade teacher. She directed the reading program in 1960 and in 1961 became principal. Mrs. Shover has been very active in professional organizations as well as in community and church activities. Her present address is R.F.D. 2, Monticello.

L. JEANNETTE WOODCOCK WINEGARDEN, B.A. '50, has been elected to the Cedar Falls City Council representing the second ward. Mrs. Winegarden will be the first woman on the council since 1948. Mrs. Winegarden and her husband, JAMES FRANK WINEGARDEN, B.A. '50, M.A. '58, reside at 2704 Walnut, Cedar Falls.

'53

Dr. RONALD W. ROSKENS, B.A. '53, M.A. '55, chancellor of the University of Nebraska at Omaha, was named interim president of the University of Nebraska. He fills the position vacated by D. B. Varner in January, 1977. A native of Iowa, Roskens taught high school in Iowa before becoming a counselor at the State University of Iowa in 1956. He joined Kent State University in 1959 as dean of men, and subsequently was dean for administration, vice president for university relations and development, and vice president for administration. He became chancellor of the University of Nebraska-Omaha in 1972. He was awarded an Alumni Achievement Award from UNI in 1974.

Ronald Roskens

He joined Kent State University in 1959 as dean of men, and subsequently was dean for administration, vice president for university relations and development, and vice president for administration. He became chancellor of the University of Nebraska-Omaha in 1972. He was awarded an Alumni Achievement Award from UNI in 1974.

'55

RAYMOND ELLIS GEORGE, B.A. '53, M.A. '62, professor of art at Illinois State University, recently exhibited drawings at the National Invitational Drawing Exhibition at Emporia, KS, at Lincoln College, Lincoln, NE, and in the administration building at Illinois State University. Mr. and Mrs. George (ELAINE KIGER GEORGE, '56) live at 1907 Garling Drive, Bloomington, IL.

'57

ROBERT THOMAS HIMES, B.A. '57, is now an educational consultant with the Lakeland Area Education Association of Northwest Iowa. Himes has been as teacher, administrator, and consultant for Traer Schools, Los Alamos of New Mexico Schools, Joint County Special Education Services of Decorah and Indianola Schools before beginning his work at Lakeland.

'58

VERNON ARTHUR EWELL, B.A. '58, has been appointed executive director of Camp Courage, a camp for mentally and physically handicapped persons at

Monticello. Ewell has been a teacher at River Hills School in Cedar Falls, an AEA-7 facility serving moderately and severely retarded children and adults. Prior to that he taught and coached in the Waterloo school district for six years. He also served in the Iowa legislature as state representative from Black Hawk county from 1968-72. Mr. and Mrs. Ewell (SHARON HEAD EWELL, 2 yr. elem. '58) and their sons will move to Monticello in June.

'59

DELOY KELVIN DAVIDSEN, B.A. '59, M.A. '62, is presently choral director at Marshalltown Community College, Marshalltown. He also directs the Marshalltown Men's Chorus and the Davidsen Chorale. Mr. and Mrs. Davidsen (YVONNE CAREY DAVIDSEN, '56) live at 2108 S 5th St., Marshalltown.

Dr. ROGER LEE BURKHART, B.A. '59, received the Ph.D. degree from the Dept. of Radiation Biophysics of the University of Kansas on Oct. 11, 1976. He and his wife, (NANCY WALLACE BURKHART, B.A. '60) and children, Bryce and Sharon, currently reside at 530 West Deer Park Road, Gaithersburg, MD. Dr. Burkhart is

employed as a public health analyst by the Food and Drug Administration's Bureau of Radiological Health.

Dr. RALPH L. BLANKENSHIP, B.A. '59, chair of the Dept. of Sociology and Anthropology at the University of Wisconsin-Platteville, has just published "Colleagues in Organization: The Social Construction of Professional Work". Dr. Blankenship's study applies anthropological field techniques to collegial and professional associations. He is a member of the American Sociological Association and the American Society of Criminology and a past fellow of the National Institute of Mental Health and the National Science Foundation. He lives at 1215 West Union, Platteville, WI.

'60

HAROLD ANDY FARRIER, B.A. '60, has been named superintendent of the Mt. Pleasant Mental Health Institute. He has been superintendent of the Iowa Security Medical Facility at Oakdale as well as acting superintendent at Mt. Pleasant. He will continue to serve as project director of the new medium security correctional unit in Building 20 of the Mental Health

Institute. Farrier taught and coached at Anamosa High School for five years. He has been with the Department of Social Services since 1965. Mr. and Mrs. Farrier live at 1200 E. Washington, Mt. Pleasant.

CHARLES A. RICHARDSON, B.A. '60, has been named director of advanced underwriting of the National Travelers Life Company in Des Moines. Richardson taught for six years in central Iowa before entering the life insurance business as a field underwriter with New York Life. After several promotions and an intensive training session he moved to Grand Rapids, MI, in 1973. In 1974 he returned to Iowa. He and his wife, (BARBARA HILL, B.A. '60, 2 yr. 1957), live at 3938 E. 23rd Street, Apt. 1, Des Moines.

JAMES D. GORHAM, B.A. '60, started his new job as district agent of Northwestern Mutual Life Insurance on Jan. 1, 1977. Gorham has earned a number of company honors during his career, and is a member of the life insurance industry's Million Dollar Round Table. Gorham and his wife, Karen, and their children Pam, Pat and Dave live at 232 E. Main Street, Washington, IA.

First Panamanian exchange student visits UNI

When Carmen Berguido attended Iowa State Teachers College (I.S.T.C. - now UNI) from 1946-48, she was the only exchange student on the entire campus as part of an experiment to see if Panamanian students would teach America about Panama and vice versa. The experiment worked and between 1943-55 about 200 Panamanian students attended Iowa colleges and universities.

Ms. Berguido recently returned to the UNI campus to see old friends, revel at new buildings and carry on the exchange work started when she attended I.S.T.C. She talked with people in Iowa cities who seemed to want Panamanian students to attend Iowa schools and to send American students to Panama for academic research work.

During her stay in Cedar Falls, Ms. Berguido also attended graduation ceremonies in the UNI-Dome and dined with old friends. "This was a good way to celebrate the UNI centennial," Ms. Berguido said of her trip. "I was amazed to see so many buildings like the library, Industrial Technology Center and the UNI-Dome."

She recalled her days at UNI when she knew little English but, "learned

to think in English in a few months. All the students were very nice to me. We used to go to Berg's for coffee or to church at the Newman Center," she recollected. There were also study nights in the dorms accompanied by popcorn, fudge and card playing. The roommates she remembers fondly were: Ramona Heffner Carthey, B.A. '47; Cay Wells Lake, B.A. '48; Marie Voelker Hendrickson, B.A. '47; Charlotte Rashid Nasr, B.A. '48; and Kay Hughes Short, B.A. '47.

Ms. Berguido graduated in 1948 with an English major. She had taught elementary school in Panama before receiving a scholarship to study at UNI. After her return, she taught English for a year at Richard Newman High School in Panama City.

Most of her teaching was done at Liceo de Senoritas, a private girls' school in Panama City where she taught English for 21 years. According to Panama's laws, Ms. Berguido retired recently after giving 28 years of service to the government.

But she keeps busy. She received a diploma as a translator of English and Spanish in 1972 and teaches English to Panamanian adults at a

Carmen Berguido

YMCA night class on the Canal Zone. She is also involved in the Association of University Women and served as president of the Panamanian association in 1968. While in Iowa, she attended the American Association of University Women convention in Dubuque.

Ms. Berguido's address is Aptdo. 11296, Betania, 6, Panamá, Republic of Panama.

HAROLD ECKES, B.A. '60, has resigned as an assistant professor at the University of Wisconsin, where he has served since 1965. Eckes has been appointed a director of Learning Resources with the City Colleges of Los Angeles, CA. Eckes holds graduate degrees from the University of Denver and Arizona State University. His new address is Oakwood 54-116, 3333 West Second St., Los Angeles, CA.

Dr. BEAUMONT R. HAGEBAK, B.A. '60, M.A. '62, 3078 Balearic Drive, Marietta, GA, has accepted a position as senior associate for human resources with The Research Group, Inc. an Atlanta-based consulting firm. He will be directing the activities of research and planning teams in various locations throughout the United States. Formerly a district coordinator with the Georgia Dept. of Human Resources, Dr. Hagebak has served previously as a Mental Health Center Director in Georgia, a dean of students at Northland College in Wisconsin, as director of Psychological Services at Mankato State University in Minnesota, and as a high school counselor in Reinbeck.

'61

L. WILLIAM "BILL" MURRAY, B.A. '61, has been appointed director of the Governor's Office of Manpower and Human Development of Illinois. He has been an associate professor of administration at Sangamon State University. In his position with Manpower, he will work to upgrade the skills of economically disadvantaged Illinoisans and to combat unemployment. Dr. Murray has a diverse business background, including work as a finance and marketing consultant, a general partner in B & M Construction Co.,

and sales or managerial work with three insurance firms. He also taught at Worcester State College in Massachusetts, Clark University in Massachusetts, College of Lake County in Grayslake, IL, and Charles City Community High School. Dr. Murray, his wife (BEVERLY SHAW MURRAY, B.A. '61) and their three daughters reside at R.F.D. 3, Crows Mill Lane, Springfield, IL.

CHARLES ALVA PATTEN, B.A. '61, wrestling coach for the University of Northern Iowa, has been appointed head of the NCAA Wrestling Rules Committee, effective Sept. 1st. Patten has compiled a dual record of 149-62-7 in 12 seasons as the UNI head coach. His squads have also won seven North Central Conference championships, one national title and nine of his wrestlers have earned a total of 13 individual national championships. 29 UNI wrestlers have earned All-American Honors under Patten in the past 12 seasons. Before coming back to UNI, Patten was assistant wrestling coach and high school wrestling coach at Exeter, CA, and Reedsport, OR. The Pattens live at 917 E. Seerley Boulevard, Cedar Falls.

'61 & '62

Dr. JERRY J. NELSEN, B.A. '61, was promoted to the health physicist position with the Energy Research and Development Administration. He and his wife, (KATHRYN CLAUSSEN, B.A. '62), along with their two sons, Mark and Matthew, live at 200 Indian Boundary, Plainfield, IL. Dr. Nelsen is in environmental management at Argonne National Laboratory.

'62

DAVID HARLAN APPLEBY, B.A. '62, has been appointed manager, field sales of the Viking Pump Division Houdaille Industries, Inc. He will be responsible for the management of the Viking regional field sales organization. Appleby joined the Viking sales department in 1969 and has held field sales positions in Indianapolis and Cincinnati. He and his wife (HELEN BLISS APPLEBY, B.A. '61) and children live at 3505 Homeway Dr., Cedar Falls.

'63

Dr. DONALD ALLEN FLEMING, M.A. '63, Ed. S '65, is presently acting dean of the Marshalltown Community College. Dr. Fleming previously served as assistant dean in charge of student services and counselor at Marshalltown Community College and as a counselor at Beaman-Conrad Community Schools. Dr. and Mrs. Fleming and their two children live at 312 N. 8th Street, Marshalltown.

'64

Dr. W. DAVID STRAIT, B.A. '64, of 1774 Bardstown Road, Louisville, KY, is currently employed as the assistant to the graduate dean at the University of Louisville, at Louisville, KY. Dr. Strait taught for several years in Iowa and Venezuela and received his Ph.D. in American Studies from the University of Hawaii in 1975.

'65

DONALD EARL BLACK, B.A. '65, has been appointed director of student teaching at Central Washington State College. His address is R.F.D. 4, Box 130, Ellensburg, WA.

Dr. JAMES CHARLES BOWEN, B.A. '65, has been selected National Association of Baseball Coaches Division III coach of the year. His team at California State College, Stanislaus, won the College World Series in Marietta, OH, in June, 1976. They had wins of 5-4 over Ithaca, NY, 10-9 over Montclair, NJ, and 13-6 over Ithaca for the National Championship. He has also been presented a Resolution of Commendation by the California State Senate. Mr. and Mrs. Bowen live at 561 Ashland, Turlock, CA.

'66

DENNIS B. MULLEN, B.A. '66, has been elected chief executive officer of Chart House, Inc., a large restaurant group who own and operate 340 eating places. He also serves as president, chief operating officer and as a director of Chart House. Mullen previously was president of the Cork 'N Cleaver steak restaurant chain. He has also worked with an international sporting goods manufacturer and with a major public accounting firm. Mr. and Mrs. Mullen live at 666 Jefferson, Lafayette, LA.

Dennis B. Mullen

PATRICIA ANN HUXSOL, B.A. '66, 3216 Idlewood St., Sioux City, has been appointed district administrator for the Iowa Department of Social Services. In her new position, she will direct state social services programs in the five-county area which comprises District 4. The counties included are Cherokee, Ida, Plymouth, Monona and Woodbury. She has been a social worker for the Iowa Department of Social Services in Black Hawk County and for the Social Services Department of the City of Kansas City, MO.

RICHARD ALAN SINGER, B.A. '66 C.L.U., has been promoted to assistant vice president of the Employee Plans division of R. B. Jones Corporation, insurance brokers of Kansas City, MO. Singer joined R. B. Jones in 1974. Formerly, he was group sales manager at the Life

Alumna awarded for student personnel work

Dr. Melvene Draheim Hardee, B.A. '31, was recognized professionally when she received the annual award of the National Association of Student Personnel Administrators at a conference in March, 1976.

Dr. Hardee, professor of higher education at Florida State University, was cited for her contributions, termed "outstanding", in higher education. Using her talents, she's been a major adviser and director of doctoral dissertations for more than 70 students at Florida State who completed doctoral programs between 1962 and 1975. Among her former students are two college presidents, four vice presidents and many others holding administrative positions in colleges and universities.

Most recently she's proposed Administrative Training for Women on a doctoral level. The project would be coordinated with various other disciplines including adult education, business, law, home economics, social work, communications, nursing and selected Arts and Sciences disciplines.

Dr. Hardee's other major work in the past few years was the

formalization of the master's level student personnel studies with seven program emphases. She has also done much national consulting in students affairs and student-faculty relationships.

The UNI graduate taught at UNI early in her career and later was awarded the UNI Distinguished Alumni Award in 1967. She appears in "Who's Who of American Women" and received a citation in "American Men of Science".

On special professional assignment of 1972, Dr. Hardee represented the United States at a 14-member UNESCO (United Nations Educational, Scientific and Cultural Organization) conference on higher education held in the Phillippines where she reviewed and assisted in the editing of the official publication.

Dr. Hardee's list of kudos and active membership roles is extensive and partially includes: executive council, American Association for Higher Education, 1965-68; president, American College Personnel Association, 1962-63; and executive council, American Personnel and Guidance Association, 1966-68.

Insurance Co. of North America. He resides at 9023 Greenway Lane, Shawnee Mission, KS, with his wife, Janet, and their two children, Jay and Jennifer.

JANE BALCH LIGHT, B.A. '66, has co-authored a book on the history of her community, "City of the Second Lake, A History of McFarland, Wisconsin", first published in 1976. It is now in its second edition. WESLEY LIGHT, B.A. '66, has been elected to the Board of Directors of the Wisconsin Association for Environmental Education for 1977. The Licht family, along with Sara, 6, and Katie, 3, live at 2964 Highway AB, McFarland, WI.

'67

D. GORDON SCOLES, B.A. '67 received his Ph.D. degree from Middle Tennessee State University, Murfreesboro on Dec. 17, 1976. Mr. and Mrs. Scoles live at 410 S. Franklin, Ames.

He is survived by his parents, Mr. and Mrs. Max Denham, 888 Surryse Rd., Lake Zurich, and a sister, Mrs. JUDITH DENHAM SMITH, B.A. '69, 305 Maryland St., Duluth, MN.

Alumnus writes church history

Dr. Donald P. Hayes, M.A. '66, volunteered many hours in the spring and summer of 1976 to help write and edit a history of St. Mary of Mt. Carmel Parish in Eagle Center, Iowa. With a little pushing, it was finished for the dedication of a new church last September.

As one of the few Ph.D.s in the parish, Hayes said he helped draft an initial manuscript of the church history for the cornerstone laying on Memorial Day, 1976. During the rest of that summer, he and Father Robert V. Swift developed the foundation information into a book prepared for distribution at the church dedication.

Hayes did the proofreading, wrote much of the contemporary history and also compiled genealogies of all parish members with their help. He said he interviewed many members concerning earlier church days. Father Swift also obtained historical information from church records in Waverly and Waterloo.

The book ties the church history in with the history of North America and settling of the Midwest states. It was made available for all guests at the church open house.

Hayes' other main research was his doctoral dissertation titled "The Iowa Amish and Their Education". He spent a full year participating in Amish daily living to write the dissertation discussing the Amish views of education.

Deaths

of former faculty,
staff and friends

Lou A. Shepherd

Lou A. Shepherd, 93, emeritus professor of primary education and extension consultant, died Feb. 22 at the Bartels Lutheran Home in Waverly.

Miss Shepherd was born at Waverly July 11, 1883. She graduated from Waverly High School, attended Grinnell College and earned the B.A. degree from UNI in 1919. She earned the M.A. degree from Columbia University in 1924 and did further graduate study at the University of Iowa and the University of California at Berkeley.

She began her teaching career in the Hampton and Waterloo public

schools, served from 1914-19 on the UNI Laboratory School staff and became chairman of the primary department at Des Moines University for several years. In 1924, she joined the UNI extension staff as a consultant to public schools in primary education, serving until her retirement in 1953.

Miss Shepherd served on an emeritus basis from 1953-66, taking full retirement on June 30, 1966.

Miss Shepherd also taught at many UNI branch summer schools established throughout the state.

Miss Shepherd authored a number of publications related to primary teaching and was co-author of a text "Methods of Teaching in Town and Rural Schools."

George C. Robinson

Dr. George C. Robinson, 82, retired professor of political science, died Dec. 28, 1976.

He was born at Oconomowoc, Wis., on April 25, 1894. He received his B.A. degree in 1916 from the University of Wisconsin and his M.A. and Ph.D. degrees from Harvard University.

In 1922 he joined the Iowa State Teachers College faculty as a teacher of government. Except for a few years, he taught at this institution until he attained emeritus status in 1962. He retired in 1970.

Dr. Robinson served in city government for many years. He was an active member in the American Legion, the American Political Science Association, the National Municipal League and the AAUP.

In 1972 Dr. Robinson delivered the inaugural lecture in the annual George C. Robinson Lectureship in Local Government established by the Uni Department of Political Science to honor his nearly 40 years of teaching and service.

Special alumni insurance offered

Dear UNI Alumni,

During the past year the UNI Alumni Association has offered group insurance on a trial basis to Black Hawk County alumni. After evaluating the program, we feel there are enough alumni interested to make this exceptional offer to all of you.

The insurance program we now offer is even better than the trial one since rates have been reduced approximately 17% for adults under age 55. There are smaller reductions for those over 55.

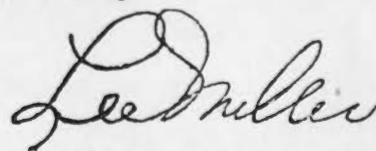

This program, which is not made available to the general public, provides a unique feature--you do not have to be employed to get this insurance.

In addition, this insurance cannot be cancelled by the insurance company, the University or the Alumni Association for any reasons except non-payment of premiums on time. The Association considers this an important guarantee not found in many, if any, similar programs. The availability of this attractively priced insurance should be a valuable, long-term service to each of you. This is especially true for people who do not belong to organizations or are not employed full-time.

Further materials will not be mailed to alumni during this academic year so this is your chance to take advantage of this insurance program.

Any of you or your spouses under age 75 may get more information from the Alumni Office or you may apply for the insurance now by using the form below.

To continue serving the personal needs and wishes of alumni, the association needs an expression of alumni interest through their participation in existing programs. We hope, for your own welfare, that you will apply for this unique insurance program.

Director of Alumni Affairs

If you would like more information on the Alumni Insurance program, mail this coupon to the Alumni Office, Room 137, Arts and Industries Building, University of Northern Iowa, Cedar Falls, IA 50613.
